1. Between 24 and 31 May 1951, there was no movement of military shipments in the area of the 4th Subdistrict Office of the Berlin railroad district. No assembly of rolling stock which might have been indicative of military transport operations was noticed.
2. According to the records of the Chemnitz subdistrict office, a troop train of 50 flatcars and 15 boxcars, shipment-record No 75066 moved from Chemnitz to Schwepnitz on 30 May. About 400 troops of Unit [REDACTED] with materiel 25X1C and ammunition were loaded at the Chemnitz railroad station, coming from the Infanterie Kaserne on Lenin Strasse. The materiel included 35 trucks and 16 AA guns of 37-mm to 50-mm, mounted on four-wheel carriages with pneumatic tires.

25X1A ** [REDACTED] Comment. Train No 105 [REDACTED] to have come from Guben rather than from Frankfurt/Oder. [REDACTED] 25X1A

25X1C [REDACTED] shuttle-train No 113 with troops went from Guben to Jueterbog-Altes Lager on 2 June 1951. It probably stayed in Mustermark until 4 June 1951, since it returned empty to Jueterbog-Altes Lager on that day and left Jueterbog with a load of troops in the direction of Guben on 6 June 1951. [REDACTED] According to 25X1A

25X1A ** [REDACTED] Comment. Probably the movement of recruits from the U.S.S.R. to the Soviet Zone of Germany which began about 1 June 1951. The statement that the recruits arriving over this line amounted to two trainloads per day during the period from 3 to 13 June cannot yet be confirmed or denied.
